$$\frac{\text{MONTHLY TOTAL BV C.T.O} \times \text{INCOME \%}}{\text{Total No of Bonus Points}} = 1 \text{ Point Bonus Value}$$

Let us try to understand this by taking the example of Startup Bonus.

$$\frac{10,00000 \times 25}{200 \times 100} = 1250 / \text{Point Bonus Value}$$

In this way, whatever points have been matched, they will be distributed according to the point value.
